NSP

Plan Description:

Jefferson County ranks highest among the Commonwealth of Kentucky's 120 counties and the Louisville MSA has been identified as the area with greatest need for assistance to reduce the number of foreclosures (according to the Kentucky Office of the Courts. Louisville/Jefferson County Metro Government (Louisville Metro) ranks highest among statewide jurisdictions with the greatest likelihood of future foreclosure, abandonment and deterioration. According to the Foreclosure and Abandonment Risk scores furnished by HUD, when aggregated to the county level, Louisville Metro was the only county assigned a most distressed score of 100 out of 100 points by the Kentucky Department for Local Government.

Recovery Needs:

In preparation for receiving the NSP special allocation, Louisville Metro established a housing policy Advisory Panel to gather input from the private sector, external Metro Government agencies, and the Louisville Metro Council. Financial institutions, housing development professionals and supportive service providers were each represented on the panel. Four subcommittees were formed to evaluate the topics such as financial leveraging opportunities, geographical need, residential construction challenges, and homebuyer concerns. The programmatic activities and priorities reflected in this amendment are a direct result of the conclusions and recommendations of the Advisory Panel based on information gathered by and for the panel.

To ascertain areas of greatest need, Metro Louisville analyzed data from a number of sources. The HUD USER website assessed need using a variety of factors including home value decline, incidence of high cost loans, and Post Office data on residential vacancies. We consider areas of greatest stress to be those Census Tract Block Groups which received the designation of 8, 9 and 10 on a scale of 1 to 10 (with 10 indicating the greatest degree of distress). Louisville Metro's primary emphasis will be on those rated 10 by US HUD. The Metro Department of Inspections, Permits and Licenses (IPL) also provided information regarding the length of vacancy and citations for Code violations for vacant structures; and the Master Commissioner of Jefferson Circuit Court provided information on foreclosures throughout Metro Louisville.

In addition to addressing areas of greatest need, the Advisory Panel also considered other neighborhood characteristics. Specific areas of priority were chosen based on the following:

Existing Neighborhood Plan or infrastructure plan

Existing neighborhood involvement, e.g. Block Watches, Weed and Seed

Potential economic development corridors, which create or could create jobs

Neighborhood assets and amenities, e.g. parks, playgrounds, schools

Owner-occupancy rate and trends

Vacancy rates, from the Department of Inspections, Permits and Licenses

Foreclosure information from Metro 211 program which was established to counsel people in foreclosure crisis
Housing value trends from the Property Valuation Administrator

Based on this information, the Advisory Panel prioritized neighborhoods suffering disproportionate levels of foreclosure stress and deterioration of the existing housing stock. The neighborhoods outlined below will have priority in Louisville Metros forthcoming requests for proposals. Data provided by US HUD is based on Census Tract boundaries which do not always correspond with commonly recognized neighborhood boundaries. Louisville Metro was able to overlay high risk Census Tracts on a map of the jurisdiction to identify the most closely correlated neighborhoods.

Neighborhoods designated as high priority areas receiving initial benefit from NSP and other available entitlement funds are include:

Table 1

Park duValle area (Census Tracts 10, 127.01, and 128.01);

Shawnee (Census Tracts 4 and 7);

Newburg (Census Tracts 113.01, 114.04, 114.05 and 114.06); and Smoketown/Shelby Park (Census Tracts 62 and 65).

Using information provided by local governmental sources, all vacant properties in these areas will be mapped and determination will be made whether individual properties are consistent with NSP eligible use requirement. Metro will move ahead with an ongoing assessment of the specific needs of each neighborhood. Recognizing the unique programmatic opportunities that each neighborhood presents will necessarily yield neighborhood specific strategies comprised of the eligible uses brought forth in the NSP by HERA.

The NSP allows the use of only the low-and-moderate income national objective. All funds will be used to assist individuals or families with incomes at or below 120 percent of area median income (AMI). In addition, no less than 25 percent of funds (\$1,743,430) will be used to purchase or redevelop abandoned or foreclosed residential properties that will be used to house individuals or families at or below 50 percent of AMI.

Louisville Metro will target NSP funded activities into areas of greatest need as stipulated in HERA. Efforts to identify the specific areas of greatest need were informed by analyzing data made available by the Office of Policy Development and Researchs HUD USER. Toward making determinations of greatest need, Louisville Metro has adopted the Estimated Foreclosure Abandonment Risk Score. These Risk Scores incorporate factors such as the percentage of home foreclosures, the percentage of homes financed by subprime mortgages, and residential vacancy rates. After reviewing Risk Scores for all Census Tract Block Groups within the jurisdiction Louisville Metro defines areas of greatest need to be those Block Groups which received a Risk Score of 8, 9 or 10 on a scale of 1 to 10 (with 10 indicating the greatest degree of future foreclosure risk and abandonment).

The areas of greatest need to be targeted with NSP funds are identified in Table 1. Each Target Area will be further analyzed and smaller project areas will be defined based on our ability to concentrate programmatic efforts and achieve sustainable outcomes for the residents in the immediate area. Detailed strategies will be determined on a neighborhood-by-neighborhood basis, at the street level, in collaboration with neighborhood leaders and Metro Council representatives.

The proposed budget for NSP activities is outlined in Table 2 below. NSP funds will be allocated across two primary types of activities. Forty percent of NSP funding is allocated to those activities to be carried out by Louisville Metro staff. These efforts will be referred to as Direct activities and include Administration, Disposition and Acquisition. The remaining sixty percent of the NSP award will be allocated to Indirect activities, or those carried out by external or third party participants in response to periodic Requests for Proposals issued by Louisville Metro Housing and Family Services.

Louisville Metro will utilize no more than 10% of its NSP allocation for Administration. Non-NSP resources will be used for educating and informing residents about redevelopment opportunities presented through HERA and local governments efforts under the NSP.

Progress Toward Activity Type Targets

Progress Toward National Objective Targets

Overall Progress Narrative:

On February 18, 2010 Louisville Metro staff and its NSP partners attended the CPD sponsored NSP Clinic held in Cincinnati, Ohio. The REO Clearinghouse is currently assisting the Metro NSP with identifying, inspecting, and acquiring REO properties located in NSP target areas.

On April 9, 2010 Louisville Metro revised its substantial amendment to the 2008 Action Plan. The revisions were posted to the Housing & Family Services's Metro NSP web page as of April 10, 2010.

<http://www.louisvilleky.gov/Housing/Neighborhood+Stabilization+Program.htm>

The citizen comment period will remain open for 15 days, concluding on April 25, 2010. Subject to HUD approval of the revised substantial amendment, the DRGR Action Plan will be modified to reflect the following proposed projects.

Louisville Metro proposed meeting the low-income set aside requirement by partnering with the Louisville Metro Housing Authority. Proposed Use B activities will focus solely on creating rental opportunities for clients earning less than 50% of area median income. Rental units would be developed through the acquisition and rehabilitation of foreclosed, scattered- site, single-family and/or small duplex properties.

Louisville Metro proposes designating three nonprofit developers to implement homeownership activities under Use E. These nonprofit housing developers will be authorized to acquire, rehabilitate and market single-family homes to income-qualified homebuyers. Other proposed Use E type activities will include partnering with Habitat for Humanity of Metro Louisville and Youthbuild Louisville to adaptively redevelop two vacant commercial buildings in the Portland and Smoketown neighborhoods, respectively.

Neighborhood-specific, Developer Request for Proposals, and Homebuyer Choice DRGR projects have been or will be canceled, subject to HUD approval of the April 9, 2010 revision to the substantial amendment.

Administrative expenditures of March 31, 2010 were \$79,503.69
